THIS INSTITUTION

Is located at Essex Center, Chittenden County, Vermont,---a pleasant, quiet, healthy village---easy of access by Railroad to Essex Junction, and thence by daily Stages. The Institution itself is a fine, new building, located just out of the village, and possesses all the conveniences necessary for the accommodation of three hundred students.

The object of the Institution is to furnish the youth of both sexes with the means of acquiring a THOROUGH English and Classical education; and in each of these departments a regular course of studies is arranged, which is intensified to meet the wants of the student, whether fitting for College, the Professions, or the more active duties of life.

Believing that the true end of education requires the discipline and development of the powers of the mind, rather than the accumulation of a mass of unconnected facts, it will be the constant aim of the Teachers, to form in every student, habits of self-reliance, and of thorough, persevering study.

It is earnestly desired that students enter PROMPTLY at the commencement of the Term, as the regular classes will be formed at that time.

Those wishing to find board or rooms, will be promptly assisted by calling on Mr. Ira Barney.

A REGULAR COURSE OF LECTURES

Will be delivered each Term, by the Principal and others, on subjects intended to instruct and benefit the students.

Text books can be obtained of the Principal.

In conclusion, the Teachers would say, that, regarding good order and thorough instruction COMBINED, as the ground-work of a good school, such regulations will be made (and such only,) as will conduce to correct habits of order, and subserve the best interests of the school; and no efforts will be spared to make the school worthy of the confidence and liberal patronage of the public.

It will be the aim of the people to make the place a pleasant resort for those attending the school.
